Day 2.

Walking in **Yeniseysk** among unique semples of wooden and stone architecture, churches and mansions.

Yeniseysk is one of the most ancient Siberian towns. The town's past is closely connected to the history of Eastern Siberia's and Russia's uniting. Yeniseysk was founded in 1619 by Cossacks as a military fortress on the left bank of the river Yenisei. During 150 years this town has been the main gates to the Eastern Siberia and "the father" of all Siberian towns.

Yeniseysk was the capital of a big region until the 18th century. The town quickly spread its influence on the vast territories along the Yenisei, Angara and Lena rivers and began to take tribute from ket and tungus tribes. Fur treasures attracted here a lot of merchants and manufacturers. The sable became the symbol of Yeniseysk. It is depicted on the coat of arms of the town since 1635. In 2019 Yeniseysk will celebrate its 400 anniversary. But the town still impresses everyone with its old architectural look. There are more than 110 objects of cultural inheritance on theterritory of Yeniseysk. Approximately 30 of them are Russian inheritance. The merchants successfully traded with the northern districts of Turuhansk region via Yeniseysk. The town was for Bering's Great northern expedition. Admiral Makarov and a Norway researcher Nansen have also visited this land. The expedition of the Yeniseysk merchant Funtusov gave start to the construction of the grandiose engineering thought monument - the Ob-Yeniseisky channel. At the end of 17th century Yeniseysk became the center of Siberian icon art. Two of ten Siberian monasteries are situated here.

The compact size of the town and the hotel central location allow you to explore the main attractions of Yeniseysk on foot.

We recommend visiting:

* Yenisei quai
* Regional museum
* photo hut – an unique museum of ancient things collected by enthusiast Peter Drozdov.
* men monastery of the Holy Transfiguration, Assumption Cathedral, Epiphany Cathedral.
